

Porter's Angle Blade Float 8ft-18ft

Porter's Angle Float Blade is designed to level out uneven ground. The four angled blades allow dirt to move into the center, to the back and out to the sides filling in ruts and berm. This tool is perfect to use prior to and following harvest.

Features

- **3 Point hitch Cat II & III**
- **1/2X6 curved blades are adjustable & replaceable**
- **Extra large trash door comes standard**
- **Quick Hitch Compatible**
- **Replaceable high carbon, wear plates**
- **Heavy duty tube design**
- **Transport Option**
- **Optional Berm Scraper**

Model #	Width	Length	Weight
ABF8	97 1/2"	102"	1460

Porter's Angle Blade Float 8ft-18ft

The updated modular design allows for dealer configuration of a roller or smoocher. By allowing the dealer to configure the **Angle Blade Float** can significantly reduce the lead time for delivery and also provides flexibility should the need arise to change from one style to the other.

Shown on the left configured with the roller assembly.

Shown on the right configured with the smoocher assembly.
