# Porter's Ejector Carry-All

12FT AND 14FT

# Porter's Ejector Carry-All

Large capacity designed for laser leveling on construction sites or agriculture land.

## FEATURES

Four independently mounted, off-set tires allow the Carry-All to work at a high speed while remaining stable throughout the moving, loading and unloading of soil.

Replaceable slobber bits.

Heavy duty welded cylinders along with, high tensile braided steel wire, hydraulic hose protects against leakage and damage generating less possibility of down time.

The Laser receiver mount, which has stairs & handrails for safety, come standard on all Porter's Carry-Alls.

With the maneuverability and precision finish that Porter's Carry-All provides, it makes a highly efficient and productive scraper for your operations. The quality hardened bushing and pins together with reinforced stress points, extend the life of the Carry-All, making it perfect for contractors and farmers.

The rear ejector door is built with a steel track with rollers for smooth easy unloading.

The high beam, as well as the raised hitch allows for maximum visibility of the cutting edge and bucket. This Carry-All also allows you to load and eject effortlessly with a larger door opening.
